WHITE PINE KITCHEN & BAR

Week of Sep 21

Sep 21, 2026 – Sep 27, 2026

THIS WEEK'S BLEED

\$451.95

Your kitchen used \$451.95 more food than a 30% target allows. Your target now comes from your own kitchen — the middle of your recent weeks.

Sunday's close

Counted, not guessed

Your team counted 32 items on real shelves — twice. We add what you bought. We subtract what's left. No guesses.

Priced from your own invoices

64 of 64 count lines have a price from your own invoices. The 0 with no price are marked. We never sneak them in.

Checked against your sales

\$10,700.00 food sold, typed in by you, same seven days. Alcohol stays out.

What it can't say yet

This counts all food that left the building — sold, wasted, staff meals, comps. It can't tell you which dish caused it yet. That takes recipes.
